On Campus and Virtual Recruiting Policies

On campus recruiting provides an opportunity for employers to connect with a diverse, highly qualified, and talented student population. Recruiting on campus creates connections with our students, alumni, student organizations, faculty, and administrators while increasing the employer's image, brand, and visibility.

UCF CSEL uses Handshake to coordinate reservations for all recruiting activities. Students submit resumes, and sign up for events, workshops and interviews on Handshake. The schedule details are finalized by the employer.

Employer Eligibility

To be eligible, an employer must be an equal opportunity employer and adhere to the National Association of Colleges and Employers (NACE) ethical and legal standards of recruitment ([see Principles for Professional Practice](#)), as well as have met all the requirements to have an approved account on

Handshake. If the employer is recruiting for more than one organization, a separate account must be established.

Equal Employment Opportunity Commission Guidelines

Employers who recruit at UCF must adhere to the [Equal Employment Opportunity Commission \(EEOC\) standards](#).

Religious Organization Exception: Under Title VII, religious organizations are permitted to give employment preference to members of their own religion. The exception applies only to those institutions whose “purpose and character are primarily religious.” Factors to consider that would indicate whether an entity is religious include: whether its articles of incorporation state a religious purpose; whether its day-to-day operations are religious (e.g., are the services the entity performs, the product it produces, or the educational curriculum it provides directed toward propagation of the religion?); whether it is not-for-profit; and whether it affiliated with, or supported by, a church or other religious organization.

NACE Principles and Guidelines

Employers recruiting at UCF are expected to adhere to the [NACE Principles for Professional Practice](#).

Employers conducting recruitment activities involving student organizations or academic departments, are encouraged provide details to CSEL. Activities should be conducted in accordance with NACE Principles for Professional Practice guidelines and laws as well as UCF Policies. This includes the UCF Alcohol Policy, which states that serving alcohol should not be part of any recruitment process or event, either on-or-off-campus.

The University of Central Florida reserves the right to terminate its relationship with any employer or their representative(s) who fails to abide by standards outlined in the NACE Principles for Professional Practice, behaves in an unethical or unprofessional manner, uses candidate data for purposes other than for employment consideration, or uses intimidation, discrimination or harassment towards any candidate or University staff member during the recruitment process.

Job Offer Guidelines

UCF Career Services and Experiential Learning encourages employers to allow students a reasonable amount of time to make a thoughtful employment/internship decision. Experience shows the best employment/ internship decisions for both students and employers are those that are made without pressure and with the greatest amount of information and transparency. Students given sufficient time to attend career fairs, participate in on-campus interviews, and/or complete the interviewing in which they are currently engaged are more likely to make good long-term employment decisions and may be less likely to renege on job/internship acceptances.

a) Exploding Offers Guidelines:

Exploding job/internship offers are those that are withdrawn if not accepted in a very short timeframe. UCF Career Services and Experiential Learning discourages this practice and students should not be pressured to accept offers under such circumstances.

b) Reneging Guidelines:

UCF Career Services and Experiential Learning discourages students from continuing their job/ internship search or considering other employment/internship opportunities once an offer has

been accepted. Students are encouraged to contact employers well before the offer deadline if they have any questions or concerns about their offers, including needing more time to make their decisions. UCF Career Services and Experiential Learning is available to assist students in navigating multiple job/internship offers from employers.

Employer Presentation and Information Session Guidelines

To schedule an employer presentation, it is suggested to contact Career Services or Experiential Learning at least six weeks in advance. While CSEL may be able to accommodate requests for presentations, space is not guaranteed. All room reservations should be requested and confirmed through Handshake. If audiovisual equipment is needed, please submit the request through Handshake within your reservation and if equipment is available, CSEL will confirm with you.

Presentations and information sessions held in CSEL conference rooms and workshop rooms should end by 6:00 pm. Employers wishing to hold sessions outside this time frame *may* be assisted in finding an alternate location on campus, however, alternate space is not guaranteed.

CSEL facilities are to be used solely to speak with students and alumni from the University of Central Florida. Exceptions to this policy must be requested of the Executive Director of Career Services in advance. CSEL reserves the right to request contact information of the interviewees and interviewers.

Catering information is available through the university's campus dining services, (Aramark, 407- 823-2494 or <http://www.campusdish.com/en-US/CSS/UnivCentralFlorida>).

Statement of Understanding for Remote (Virtual) Internships

Remote (virtual) positions involve work arrangements that take place away from the primary business address. Remote (virtual) positions involve primarily the use of online and cloud-based technologies for conducting assigned work activities.

Employers posting remote (virtual) full-time/part-time, internship, or co-op opportunities through Handshake agree to the following guidelines:

1. The word “remote” or “virtual” must be included in the job posting title for example “Virtual Graphic Designer Internship, Remote Accounting Assistant”, etc.
2. The employer must agree to offer positions that meet UCF Career Services, Experiential Learning, and [National Association of Colleges and Employers \(NACE\) guidelines](#).
3. The employer must provide a detailed internship description with specific learning outcomes and expectations.
4. The supervisor for the internship must be a discipline expert and must provide the student with regular supervision, mentoring, and feedback as outlined in the [NACE internship standards](#).
5. Paid internships are strongly recommended for virtual internships.
6. Unpaid internships, volunteer and any experiential learning opportunities cannot exceed 25 hours/week. However, structured academic and clinical programs, practicum, observation hours and approved partner programs will be reviewed on a case by case basis. Unpaid internships must adhere to the [U.S. Department of Labor’s Fair Labor Standards Act](#) and must meet university guidelines.
7. The employer must agree to a phone or in-person meeting with EL Staff/Faculty, if required.
8. CSEL reserves the right to decline virtual opportunities based on minimum quality standards.
9. Technology Usage and Security: The employer should be aware of security considerations based on information provided and consider confidentiality of information that students/alumni will be working with on their own hardware and software. *UCF is not liable for any potential breach or loss of information.*
 - a. The employer should provide a virtual space for managing projects, workflow, and saving work product for the student. This could be in the form of any "cloud" computing software (i.e. Google Drive, OneDrive, Dropbox, etc.). The student should not save work material to a personal computer/device. This provides the supervisor the ability to monitor assigned tasks/projects.
 - b. The employer hosting a virtual internship must provide all necessary resources (software, hardware, etc.) for the student to perform their tasks. Students must not incur any expenses for the purpose of the internship.
 - c. The employer will outline clear expectations of the student’s use of personal hardware (personal computer, personal phone, and personal workspace), and software (Microsoft products, Adobe Suite or other necessary programs).
 - d. Software products should not violate UCF’s Use of Information Technologies and Resources Policy related to licenses. Software products can only be utilized for educational and relevant skill development purposes.
 - e. It will be the employer’s responsibility to remove computer software, hardware and any licenses provided once the student completes the internship.
10. Communication and Supervision
 - a. Internship supervisors should ask students to e-mail a weekly report outlining updates and challenges, progress on tasks/projects assigned, and any questions they may have.

- b. Weekly reports should include:
 - i. Record of hours worked for the week
 - ii. Assigned tasks/projects
 - iii. Completed tasks/projects
 - iv. Regular meeting documentation
- c. A scheduled, weekly virtual meeting must be conducted between the supervisor and intern, to provide guidance to the intern through tailored feedback, and to discuss upcoming assignments.
- d. Supervisor requirements:
 - i. The supervisor should be available to help the student during defined work hours.
 - ii. Students should work only when the supervisor is available to the student.
 - iii. Supervisor may need to provide documentation of the above actions to EL.
 - iv. The supervisor or student may have to submit documentation of communication or weekly meetings, if requested by EL Faculty.
 - v. The supervisor should involve the intern in regular operations as much as possible; for example, including them in face-to-face/conference call opportunities such as organization meetings or client visits.

11. Hours and Scheduling

- a. Internship hours and schedules must be arranged in advance, where the student and supervisor agree on the number of hours that will be dedicated to projects per week.
- b. Students may be receiving credit through their department for the internship and may need to complete specific hour requirements, which should be discussed with the student prior to offering the internship (e.g. the minimum hour requirement for a zero credit internship is 100 hours per semester).
- c. Students enrolled in an internship course are required to maintain a weekly record of hours worked on a timesheet, which will need to be approved by the internship supervisor at the end of the semester.
- d. Supervisor must provide reasonable time allotment for any given task or project based on the student's learning curve, as the student may not yet have developed expertise in the subject matter. This will avoid conflict related to expectations and actual hours logged.

12. Evaluations

- a. It is recommended that evaluation standards are identified and communicated to the student at the start of the internship. Evaluation criteria should be specific to the position assignments.
- b. Supervisor should provide ongoing feedback to the student regarding position assignments.
- c. For students enrolled in an internship course, both the supervisor and student are required to complete final evaluations provided by UCF.

UCF reserves the right to decline an employer account or posting for violation of CSEL policies.

Cannabis Industry Recruiting Policies

UCF adheres to federal law regarding marijuana. Employers whose primary business is in the cannabis industry are not permitted to post jobs in Handshake.

Although we acknowledge that the state of Florida has created a pathway for the legal operation of businesses engaged in the production and distribution of marijuana for medicinal purposes, neither Career Services nor Experiential Learning will approve companies in this industry to post positions on Handshake. This decision is made with the intent of protecting University of Central Florida from the repercussions of violating federal statutes which expressly forbid the growth, distribution and sale of marijuana and related products. Students accepting positions in this industry do so at their own risk, and these positions, even when described as internships by the employer or students, are not considered internships by UCF.

Political Party Policies

University of Central Florida does not endorse any political candidates, political parties or political organization. Employer approval, job postings and/or the posting of this notice does not constitute an endorsement of this or any other political candidate or organization by UCF.

Resume Policies

Approved employers may access resumes in Handshake once the applicant applies to their posting. Students and alumni using Handshake, with a public profile, know they may be contacted by employers. They are allowed to respectfully decline any interview or application invitation if they are not interested in the position advertised. Not every student at UCF uses Handshake or enables access to a public profile.

Release of Records/Confidentiality

No disclosure of student or alumni information will be provided to academic advisors, employers, psychologists, etc. without prior written consent of the student or alumnus, unless necessitated by

health and/or safety considerations. Confidentiality will be maintained, including personal details, written records/reports, and information from computer databases. [FERPA regulations](#).

Handshake Usage Restrictions and Limitations

Handshake is not to be used to sell anything or to look for "clients." Using Handshake for contact mining or a sales pitch is strictly prohibited and anyone using the system for this purpose will be declined access.
